falling in that, he has strings out for another third baseman of recognized ability who will fill the bill. If he gets Connaughton and the third baseman he is agreeing on, the team will be complete, with the exception of about two more pitchers. Manning is determined that the Kansas City team shall not be deficient in pitching talent this season, and he expects to start the season with five or six twirlers. The four of these who show up the best will be retained. Manning expects to have his entire team signed within the next month. As the season does not open until day, the players will not report here until early in April, so the fans will have to wait some time before they can se the faces of the old friends and the new players.

HAWAII IN THE SENATE.

INTERESTING DISCUSSION BROUGHT OUT BY MR. LODGE'S RESOLUTION.

He Desired to Know Why the United States Warships Had Been Removed From Honotalu and Called on the War Department for Information.

Washington, Jan. t.-Less than twenty nators were in their seats to-day when vice President Stevenson called the senate order. After the journal had been approved and the routine morning business transacted, Mr. Lodge (Rep., Mass.) adressed the senate upon his resolution of squiry as to why the United States warhips had been withdrawn from Honolule, Mr. Lodge said: "At the beginning of the esion I introduced a resolution asking for is reports and correspondence of Admiral o doing was because I believed the opin-ons and observations of a distinguished and able naval officer, who is necessarily outside of all politics, would be of great alue to us in understanding the conditioffairs there, and in reaching a proper knowledge of our relations with those islands. Admiral Walker's papers were, as I had anticipated, most valuable on these points. They showed that to a disinterestobserver actuated by no motive but the aterests of the United States, it was perfeetly clear that our true policy was the annexation of those islands. They confirmed in this way the views expressed to the state of a resolution of last summer and which I believe are the views held by substantially all the American people, seep those concerned in the present administration. All this was valuable information, but Admiral Walker's last letter brought out strongly a highly important point which has thus far not been appresed to the control of the press that all our warships had ben withdrawn from Hawaii and that, although squared were lying tile at Marc's island, none had been sent back to Honolulu. The last teletre of Admiral Walker to which I have referred discloses in a striking way the danger and impolicy of this course and also proves that our government had been annexation of those islands. They conproves that our government had been warned in regard to it by an officer entitled warned in regard to it by an officer entitled to speak on such a point with the anylor-ity of an expert. Admiral Walker says with great frankness that if the British men-of-war, as well as our own, had been withdrawn, it might have been a good thin

withdrawn, it might have been a good thing—sertainly it would have done no harm to the stability of government in the island." He then referred to the manner in which England reached out to increase her possessions, and asserted that the British ship encouraged the Hawdian royalists, while the absence of the American vessel gave encouragement to a counter revolution. He also referred to the fact that Japan had a warship at Hawdi. He said the importance of Hawdi to the United States could not be over estimated, and would become greater upon the completion of the Nicaraguan canal. He continued:

"Under such circumstances to leave those islands without the confidence and protection of an American ship of war and leave our interests in Pearl harbor and the interest of our cirizens unguarded appears to me tion of an American ship of war and leave our interests in Pearl harbor and the interest of our citizens unguarded appears to me wrong in the very highest degree. What motive actuates the administration in this extraordinary policy it is impossible to say. If it is their desire to throw the Sandwich Islands into the hands of Great Britiain, as they have openly proposed to do with Samoa, their action is comprehensible, but nothing eise explains it. Such a policy is so unpatriotic, however, that it is difficult to conceive that it should be entertained. It seems to me that in view of the vast importance of the Sandwich Islands to this country great wrong has been committed in withdrawing our ships at this moment and that a man-of-war should be sent there at once. It is for this reason that I have introduced this resolution of inquiry, and I think our government owes it to the people to send a man-of-war to Honolulu without delay, If they do not do this, they will no right to remain silent as to their reasons for such an extraordinary course."

course."
At the conclusion of Mr. Louige's remarks
Mr. Butter (Dem. S. C.) moved the reference of the resolution of the committee on
foreign relations.
Mr. Abirich suggested that the resolution Mr. Aerien suggester that the resonute he medified so as to request infortion on the subject from the president Mr. Morgan (Dem. Ala) declared him in favor of americation and a good frien the people of Hawaii. the resolution should go to the committee on foreign relations. He believed the new

republic of Hawaii should have an oppor-tunity to show the world that if did not need a crutch to help it along.

Mr. Hawley (Rep. Conn.) referred to what he termed the "living conspiracy" in the islands and to the advisability of the people to know what the policy of the United States was to be if a revolution breke out. The inquiry was one that might properly be made.

Mr. Butler them S. C.) expressed great respect for Admir. I Walker, but said that officer had simply given his opinion of what Great Britin would do in the event of centain contingencies. He insisted upon the reference of the resolution to the com-mittee on foreign relations.

of centain contingencies. He insisted upon the reference of the resolution to the committee on foreign relations.

Mr. Hale (Rep. Mc.) urged the adoption of the resolution.

Mr. Grap (Dem. Dcl.) spoke of the "scandal" and "shame" to the American people that had been brought about by the late interference on Hawaiian affairs and said he hoped that the country would not again be smirched by it, and in answer to the senator from Massachusetts (Lodge) he would say that the larger body of public opinion shared the views he expressed.

Mr. Aldrich also took part in the discussion at this point and asked Mr. Gray concerning the stationing of a ship in Hawaiian waters by this government, which led the latter to remark that very unfortunately there was a vessel called the Boston stationed there some time ago. Mr. Aldrich then went on to say a commission of Hawaiian royalists had visited Washington some time ago and he had been told subsequently to that visit the United States ships at the islands had been withdrawn and had not been replaced, He did not say their withdrawn tollowing it. The fact the ships had been withdrawn constituted a sufficient reason why the inquiry should be made.

Mr. Aldrich could not understand why

hould be made. Mr. Aldrich could not understand why this continued sugglery on the Hawaiia question was kept up by the party i

power.
Replying to these observations, Mr. Butter declared the object of the resolution was to make a point against the administration, and that if there had been jurglery it was by the senator and his friends. Siery it was by the senator and his friends. Mr. Teller (Rep., Col.) said he admitted there had been some haste on the part of the autgoing administration in attempting to bring these islands under our flag, but he asserted that an examination of the public utterances, brespective of party, would show that the great body of the American people sympathized with the would show that the great body of the American people sympathized with the effort to bring the islands into closer relations with this country. They were essential to the sufety of our commerce. If we should build the Nicaraguan chial did anybody suppose we would like these islands to pass into foreign hands? These people are peculiarly under our protection, and are threatened by our great commercial antagonist, Great Britain. He charged it had been the purpose of the administrat had been the purpose of the admini-ion to restore Lillnokalani, and said-tal agencies had been put to work

that purpose.

Mr. Gray again took the floor to challenge, as he said, the correctness of the statement made by Mr. Teller that the Hawaiian question had theired in the last campaign. He contended the testimony to before the senate by stigating comtaken before the senate by stigating com-mittee concerning the has Hawaii revolu-tion had been of a character to convince even annexationists it would not have been the proper thing for the United States to attempt to annex the islands at that time. He admitted he was not lavorable to an-nexation of the islands under any circum-stances, and said he did not believe in the rolly of colonial segregate.

Teller, Nay, Butler and Lodge continued the de-act until 2 o'clock, when Senator Morgan ook the floor to continue his speech on the Stearagua canal bill, the Hawaitan resolu-ion going to the calendar. Then at \$25 p. m. on motion of Mr. oekrell (Dem., Mo.), the senate went into xecutive session, and at \$55 p. m. ad-mined until Monday.

Proceedings in the House, The general debate on the currency bill, which consumed the time of the house again to-day, will continue until the caucus is held. Then if the present plans of the advocates of the bill are inforsed, the debate will go on under the five-minute rule until Thursday of next week, when the final vote will be taken. The feature of the day's debate was the speech made in opposition to the measure by Representative Hendrix, a New York banker. He declared the bill would be inadequate as a measure Hendrix, a New York banker. He declared the bill would be inadequate as a measure of relief for the treasury and besides would provide an unsound currency. He suggested for the only measure of relief the passage of a bill to fund the greenbacks. The other speakers to-day were Messis, Hepburn, of Iowa: Dingley, of Maine, and Gresham, of Texas.

PROPOSITION SUBMITTED.

If Not Accepted Western Lines Will Wage War Against the Canadian Pacific— Union Pacific Boycott.

Chicago, Jan. 4.- The committee of the Western lines which had under considerathe Canadian Pacific to-day made a definite proposition to that line, looking to the Ite proposition to that line, looking to the abolition of the commissions paid at Canadian and American ports. It is not proposed to do away with the commissions entirely, but to reduce them in a large measure. If the Canadian Pacific does not accept the plan, the Western roads will begin the fight against it with renewed vigor.

The committee which has under discussion the boycott on the Union Pacific announced that it was not able to agree, and will take further time to work on the mat-

will take further time to work on the mat-ter. The Atchison-Southern Pacific com-mittee was not able to report. The agree-ment which these two lines reported the other day had been reached to their mutual satisfaction has gone by the board. The officials of the Southern Pacific gave their consent to the plan of adjustment, but later announced, on rereading the agreement, they found that there were some things in it which they could not approve and the entire thing went to pieces. The two lines are now endeavoring to get together wealn.

A conference was held to-day between A conference was held to-day between the representatives of the Union Pacific on one side and the Rio Grande, Rurlington and Rock Island on the other, to see if some agreement which will permit the exchange of all business between the lines represented without restriction could not be reached. Nothing was done, principally because the Union Pacific refused to receive one way business to Portland except at the Missouri river. It demands the long haul on the buriness, and will not accept it at Denver or Ogden.

Forst Scott, Kas., Jan. 4,-(Special.) In the United States court to-day the case of Vilia Reed, of Ottawa, charged with illegally using the mails, was dismissed and the defendant discharged. The case of A. M. McComber, of Galena, charged with counterfeiting, was then taken up and will be concluded to morrow. concluded to morrow.

Robott, Kas., Jan. 4.—(Special.) Yester-lay was the time set for hearing the con-est for county commissioner in this county, but a postponement was taken till Monday. This is a case brought by S. H. Dodge, of Beloit, against Slater White to centest his election to the office of county commissioner at the last election. The returns show White elected by a majority of five votes.

Ottawa, Kas., Jan. 4.-(Special.) The Ottawa, Kas., Jan. 4.—(Special.) The members of George H. Thomas post No. 18, G. A. R., are working to elect Hon. J. P. Harris, of this city, to the position of commander of the division of Kansas. It is claimed that, considering the high qualifications of Mr. Harris and the hitherto modest demands of this, one of the foremost posts of the state, this honor should be accorded their candidate.

Ottawa, Kas. Jan. —(Special.) A horrible fate befell the 1-year-old child of Manuel Walker, a colored laborer, of this city, Walker left the child tied in a chair while he went to work and during his absence the chair took tire and the little one was fearfully burned and died yesterday. It is supposed that the cider child played with matches and set fire to the cloth cushion of the chair.

matches and set fire to the cloth cushion of the chair.

Atchison, Kas., Jan. t.—What is believed to be natural gas has been discovered at Doniphan, six miles north of Atchison. The gas is found imprisoned beneath the ice on Doniphan lake. It appears in the form of great bubbles under the ice, and when tapped forces itself through the opening, and may be lighted and burned as if coming but of a gas jet. It was, first discovered a year ago, but the ice melted before there was time for an investigation. When the lake froze over again this year the bubbles reappeared, and Professor Knerr, of Midiand college, who visited the lake to-day, says he believes that it is true natural gas. It burns with a yellowish fame, quite unlike the flame of marsh gas. The gas appears all over the lake, and comes up in such quantities in places that the water will not freeze. It is likely that a company will be organized to bore a hole and find out the true nature of the deposit.
